MR. TAX-PAYER MAKES SOME WISE SUGGESTIONS

Mt. Vernon, Ky.
Nov. 24, 1909.

Mr. Editor:—

Won't you publish these few thoughts? The purpose of them is to call attention of the people to the needs of our Town and County. We go stumbling about in the dark when night comes on. The citizens of live, thrifty towns have long since gone to work and secured modern lights. What are we doing toward lighting our streets? Where are our water works, so very essential to any town? Do we expect to continue making slaves of our women and impeding the progress of our men? Do we want to make our burden and those of our loved ones lighter by having water in our homes and places of business? Then the health and cleanliness of the family and town demand it. What is home without a bath-room and plenty of hot and cold water? If we are to have these things, and to-day they are deemed the world over as necessities, we must bestir ourselves. I, for one, am not satisfied to grope in darkness and be deprived of the benefits of a bath-room, with plenty of water. The fact is we ought to be ashamed to look our wives in the face because we do not strive to have light, water and other conveniences for their and our own benefit. This is the very reason why

our progressive young men leave us because we are too slow, too poky,—to unprogressive. We have not those things which even an ordinary town has had for many years. Our people deserve better things and we can have them. The trouble is that the men who ought to be most interested,—who ought to want a Commercial Club; a Good Roads Organization, a Farmers Association; a splendid College crowded with pupils; good side-walks on all the streets; a beautiful park,—seems to be the least interested. If you go to them, they say, "Yes, we are for it and it ought to be done." But what work are they doing to bring it about? The very men who could do the most and have the greatest amount at stake are the very ones who are apparently doing the least. An opportunity is presented to have a pike,—a movement which should appeal to every man's business sense, as well as his pride. For every dollar invested by our merchants, business and professional men, a hundred will return thereby. In addition it would plant in the breasts of our young men a hope of future success. It will fill our girls and boys with noble aspirations. From the country they can come to the high school and to our college. Our churches will grow, trade will increase and our town improve. And yet, what are the business men doing to accomplish this great work which means so much to them? Can't we all pull together? Can't we meet and discuss these local questions of such vital importance to each and all? The man who excuses himself by saying that he has not the time to take part in such meetings and push along the town is either lazy or totally indifferent. His municipal pride has not been sufficiently aroused. He is lacking in some of the very essential elements that go to make up a first class American citizen. In Mt. Vernon, at night, we have nothing but time. Certainly the busiest of us could give one evening in each two weeks for the discussion of ways and means to build up our own business and that of the community. You can contribute to the prosperity, comfort and pleasure of your family, as well as the financial growth of yourself, by laboring for and giving to these

very necessary improvements. The first thing to do in order to have a prosperous county is to build good roads. The first essential to a progressive, business-doing town is to have clean and perfectly kept streets, well lighted; modern side walks, pure and convenient water. May we join hands in a united effort to bring about these much needed improvements, that life might be worth living; that cleanliness and health might be had; that modern conveniences might drive away drudgery and fill us with hope of greater prosperity, higher education and better things.

Samuel M. and Moses Payne of Tazewell, Tenn., are visiting their sister Mrs. Nancy Jane Searcy, also Mrs. Matilda Houk, of Mt. Vernon.—Mrs. Searcy gave a Thanksgiving dinner in honor of her brothers and Mrs. Houk, inviting other relatives and neighbors. Forty ate dinner of which twenty-nine were relatives of Mrs. Searcy. After partaking of a delightful dinner which was highly enjoyed by all present, Rev. S. M. Payne made a talk on the origin and design of Thanksgiving Day which was very appropriate for the occasion and enjoyed by all.

Twenty-two entombed miners were rescued Saturday from the St. Paul mine at Cherry Hill, and over seventy others in another section of the mine are reported to be alive. Rescuing parties are prosecuting the search with great vigor. The whole atmosphere in the little town was changed by the news and grief was changed into joy for some and hope for others. The eager women crowded about the shaft entrance to learn the names of the men as they were brought to the surface.

Mrs. Allen F. Read was Saturday found guilty of attempted extortion by a jury in Judge Shearer's court at Denver, Col. A year ago Mrs. Read attempted to force Mrs. Genevieve Chadler Phipps to give her \$100,000; threatening to blow her up with dynamite unless she complied. The defense was insanity.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R.V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for women's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Taylor brothers, prominent young men residing in the east end of the county, were given a penitentiary sentence of six months by a jury in the Pulaski Circuit Court on the charge of ku-kluxing. Judge Jarvis immediately gave the gentlemen a new trial and hundreds of the most prominent citizens stood ready to go their bond. It appears that much pretty thievery had been going on in the locality where the Taylor brothers reside. Suspects were cowhided by a band of alleged ku-klux and the Taylors are thought to be innocent, however, and it is not believed that they will ever be punished.—Danville Advocate.

The Doctor's First Question

"How are your bowels?" This is generally the first question the doctor asks. He knows what a sluggish liver means. He knows what a long list of distressing complaints result from constipation. He knows that headaches, bilious attacks, indigestion, impure blood, and general debility are often promptly relieved by a good liver pill. We wish you would talk with your own doctor about this subject. Ask him at the same time if he approves of Ayer's Pills. Do as he says. J. C. Ayer Co., Lowell, Mass.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia. Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol. When you experience sourness of stomach, belching of gas and nausea, fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it. Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only

a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do. Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

What Have You to Show for Your LABORS.

The only witness you have is the money you save. A person able to earn money is, with the Peoples Bank also capable of saving a part of it.

The right way is to send or bring what money you can spare to the bank for safe keeping.

The right time is when you get your pay for your labor count out what you owe and send balance to Peoples Bank rather than carry it about with you, and after having started a bank account you will feel far more independent for you will be able to meet future obligations and emergencies and ease of mind.

The petition is in the hand of Judge T. G. Jones, now holding court in Birmingham, Ala.

BRADLEY IN CINCINNATI

"I am here on law business," said United States Senator William O. Bradley, of Kentucky, when seen last evening at the Hotel Sinton. "Yes, I am in favor of improving the Ohio river and I presume that matter will be one of the most important propositions which will come up before Congress this winter. I do not expect to go to Washington until the beginning of the congressional session. When asked concerning the present status of "night riding" in Kentucky and the efforts of Governor Wilson to put down these outrages, Senator Bradley said: "I think that "night riding" in Kentucky has ceased to be an epidemic. Of course, there have been recent out breaks of that character, but it appears now that the practice has been pretty well suppressed."
